

## Government Training, LLC™

For the past 2 years, Technically Speaking, has supported our Defense Logistics Agency (DLA) Enterprise Services Training contract. In 2017, our companies delivered 304 professional development courses to DLA. One-third of these courses were provided by Technically Speaking.

I'd like to take just a moment to comment on this business relationship and the support we have received from Technically Speaking and their staff.

A company is the sum total of the leadership, key employees, experience and business acumen of its people. The staff has clearly brought to Technically Speaking a vision of quality and a unique and highly effective mix of the above.

Over the past 2 years, we have requested support almost daily as we deliver training to our client. The attitude, instructor resources, and staff have been outstanding. TSI instructors have demonstrated experience and have consistently delivered best-in-class training. Our client (The Defense Logistics Agency and Coast Guard) have been very pleased with the results. The staff is always accessible and view our mutual business area with respect and a can-do attitude.

Please accept our personal appreciation for all that you and your staff have done. We look forward to expanding our business relationship with Technically Speaking.

All our best for your continued success.

Don  
Vice President  
Government Training LLC

PS. If any of your future clients would like to discuss with me your company or people, please extend to them my contact information.
